

DEPARTMENT OF THE NAVY
MEMORANDUM

DATE: 15 Aug 91

FROM: LCDR Painter

TO: RADM Heine

Subj: BRIEFING INPUT

Encl: (1) Overheads
(2) Slides with matching photos
(3) 17 Feb 91 Memo to N3, 3rdNCR
(4) Misc letters and memos
(5) Misc PAO products

1. Encl (1) includes a title page, a map (drawn before we sent a port recovery det into Kuwait), a COMUSNAVLOGSUPFOR org chart (Subic at bottom left), an N7 org chart (of interest, Painter, Opitz, Wessels, Keith, and Smith are all PWC Subic, Capt Thaemert, Thomas, and Garcia also reserve CEC; only Bond is regular/active), deployment chronologies in both tabular and bar chart formats (the latter with body counts), a passenger movement chart (interesting because we put two Subic people, a CM1 and an SK2, into vehicle contracts and leasing, replacing the ASU Bahrain people, on Jan 14th: look at the huge price/performance jump), and an overhead of FLEHOSP 5, Jubail, where we had a 21 person augment (dark tents in foreground are berthing, light in background are the wards).

2. Encl (2) is some slides I had made up since my last presentation to you, photos are match numbered and explain content.

3. Encl(3) is the only correspondence I had with the 3rd throughout the deployment. While still at Subic, we had msg traffic with CBPAC concerning our 782/weapons outfitting, and that's it.

4. Encl(4) is for your background, primarily contemporaneous memos to Subic to keep Capt Lehman informed.

5. Encl(5) again for background.

6. I hope this is of some use to you, will look forward to seeing you in Newport.

V/R

W. L. PAINTER
